INFORME 2024

DIGITAL

Harvesting | Forestry | Engineering

COMING FEB 2024 - our Informe Harvesting, Forestry and Engineering Daily Rate Costing reports have been given an upgrade and digitised to allow users to input your own machine and labour variables to drive our daily rate costing models.

Think your loader is working longer hours than our baseline? No problem, just increase the variable hours to see the effect on the machine daily cost.

Worried fuel prices have jumped during the year? No problem, change the fuel cost to see the effect on the machine daily cost.

Think our labour rates are not reflective of the rates in your region? No worries, just input your own hourly pay rates into the model and see the effect on the daily cost to run that labour unit.

Our new web-based user interface will allow you to input your own cost variables into our costing models to calculate a specific daily cost to run your crew. *Access to Informe Digital will be for 12 months of the year.*

INFORME DIGITAL Harvesting 2024	\$1,000 + GST
INFORME DIGITAL Forestry 2024	\$800 + GST
INFORME DIGITAL Engineering 2024	\$800 + GST

INFORME DIGITAL Harvesting, Engineering & Forestry 2024 will be available February 2024.

Any earlier hardcopy Informe orders can opt for an upgrade should you want to access the Informe Digital web based models. Pricing for the upgrade will be the \$ difference between the hardcopy and digital versions. Check in with us late January if you are interested.
