

## STUMPAGE SALE

### Orua Bay, Awhitu Peninsula

- The owners at Orua Bay Forest are seeking expressions of interest from parties wishing to participate in a competitive sales process for their Pinus radiata tree crop, only.
- Orua Bay Forest has a net stocked area of approximately 24.3 hectares of Pinus radiata predominantly planted in 1997 and managed in a framing regime.
- Situated on the Awhitu Peninsula, the forest is well situated to take advantage of domestic processing near Pokeno, and export market outlets in South Auckland & Mt Maunganui.
- Medium to steep hill country suited to combined hauler and/or ground-based harvesting.
- Good existing access exists, with some new internal roads required at harvest.
- Raw inventory files and shape files are available for bidder use, subject to conditions.

In the first instance, an information memorandum providing further details is available at <https://forme.co.nz/services/forestsalesassist/>
